Now Make Your Choice Our life is ever on the wing.
How swift the months and years

go by;
Oh! as we look, 'tis but a dream;
Lo, swiftly do the moments fly.
Our passing souls on power can

stay.
Time as its tide bears us away
To that great deep and shoreless sea-Unending, vast eternity.

Charus Eternity! Eternity! Eternity! Eternity!
Where will you spend Elernity?
Tis Heaven or hell for you and me;
Now make your choice—
Which shall it be?

Our blinded, foolish hearts are wrong When swallowed by the world's

When swallowed by the words vain show; fine tainted glars and dazzling gift Lure on to death and endless woe. Our little day will soon be o'er, Our chances gone for evermore, Twell be too late your sin to see When you awake in Eternity

FIGHTING FOR THE LORD Tunes.—Gird on the armour, 228; Song Book, 552.

Song Book, 502.

I have read of men of faith
Who have bravely fought till death,
Who now the crown of life are
wearing;
(Then the thought comes back to me,
Can I not a Solder be.
Like to those martyrs bold and daring?

Charme I'll gird on my armour, and rush to the field.

T will join at once the fight, Leaning on my Saviour's might, Who's strong and mighty to de-

i liver;
From my post I will not shrink,
Though of death's cup I should
drink;
I Hell to defeat is my endeavour.

Will you not enlist with me And a valiant Soldier he? Vain 'is to waste your time in Jesus more men of war who will fight and no'er give o'er, Routing hell's hosts in fear and wonder.

GRACE FOR ME!

Tunes.—Grace there is, 234; Song Book, 376.

Saviour, hear me while before Thy
feet
I the record of my sins repeat;
Stained with guilt, myself abborring,
Filled with grief, my soul outpour-

ing; Canst Thou still in mercy think of

Stoop to set my shackled spirit free, Raise my sinking heart and bid me be Thy child once more?

Grace there is my every debt to pay.

Over every promise write my name; ITALY'S SPECIAL CAMPAIGN
As I am I come believing.
As Thou art Thou dost, receiving,
Bid me rise a free and pardoned
shave;
Master o'er my sin, the world, the
grave.

Charging me to preach Thy power to save to sin-bound souls.

O BOUNDLESS SALVATION
O boundless Salvation; deep ocean of love,
O tuness of mercy Christ brought from above;
The whole world redeeming, so rich and so free,
Now flowing for all men—come roll over me!

At Turin, too, new meshade 4—

My sins they are many, their stains are so deep,
And bitter the tears of remorse that

the Corps now possesses a new Hall are so deep.

And bitter the tears of remorse that

I weep; But useless is weeping, thou great erimson sea,
Thy waters can cleause me, come, roll over mel

O ocean of mercy, oft longing I've stood On the brink of thy wonderful, life-

On the brink of thy wondering are giving flood!
Once more I have reached this soul-cleansing sea,
I will not go back till it rolls over

The tide is now flowing, I'm touching the wave,
I hear the loud call of "The Mighty

to Save,"
My faith's growing bolder: delivered I'll be;
I plunge 'neath the waters, they roll over me.

TMOST as common as to grow old is it to wish that one might be young again. How carefully, if we could only have them once more only have them once more, would we treasure and use the days and hours, may the very moments, we have lost! How studiously would we avoid the by-paths into which we wandered and the seductive meadows wandered and the seductive meadows of case and self-pleasing in which we wasted so much time, to recall which we would beggar ourselves even if we were multi-millionaires!

e were multi-millionaires; We have to thank God some men women have recognized the priciess worth or their flying min-utes before they passed and that, to the infinite beneat or themselves and of the world, they have differently sought to get full weight of good sought to get this weight of good thoughts, good words, and good deeds in return for the precious days that have been theirs.

Beeless Effort

But many a man sighs for "the days of his youth" with a bitterness that is born of knowledge that he has poured out and lost them, like water on a sandy desert, day after day, year after year, in useless effort

What is there left to him of it all? Only a parched and dreary waste that has swallowed up all he has put into it and given him in return no-thing but grit for his teeth and sand soul, however well spread may be his table, and blind and deaf and miserable spiritually, however bright and full nf music and laughter are his

surroundings.

Time to Save Something

For the sake of your eternal hanpiness let conscience speak now while there is time to save some-thing from the wreck of life. Do not thing from the wreek of life. It is well to remember that mis-

takes and errors of judgment, as well as evil done by evil intent, lead to remorse, especially when the error, though it has been the result of nothing worse than a want of care, has been followed by disastrous

consequences.

The dreadful plaint of an enginedriver, whose train had run past danger signals and caused an ap-palling loss of life, has rung in our ears for years past. "O God." he continually mouned, "give me back vesterday

Fager, Longings

What eager longings for better and happier things have then been stirred! Ridicule and persecution may have been heaped upon the young convert, but the greater and hereer these have been the more nercer these have been the more deeply, we may almost certainly take it, have the hearts of the persecutors been stirred by remorse.

The ancients had three legends by The ancients had three legents by which they sought to show how im-possible it is for men to shake off remorse once it has taken hold of the heart. In our a man was bound to a piller exposed to the sun and to a stracks of an earle which every the attacks of an eagle which every lay consumed his vitals; but every night they grew again and with the

morning the horrid torfure recominches. In another, the victim of despair was set the task of pushing a huge rounded boulder to the top of a hill, but so often as he got it to the summit it rolled down again. In the summit it rolled down again. In the third, a man dying with thirst-but never being released from his pains never being released from his pains by death—was placed in the centre of a river; but so often as he stoop-ed to drink, the water fled from him,

"Must I then suffer remorse for ever?" asks some one who sees be-hind him a misspent life. This fuhind him a misspent life. This In-deed was the only message that the ancients had. They recognized man's responsibility for the use or misuse of time, but could not tell him how he could "return to the days of his worth !!

God's object in arousing remorse is defeated if we stop there. The repentance and Salvation found a ransom" is the declaration nound a ransom is the declaration which precedes our text. "I will restore," God says in another place, "to you the years that the locusts hath eaten."

New Life for You

This wonderful Salvation is yours now if you will have it. The death of Christ means new life for youof Christ means new life for you— a commencement of life over again in the sense that the past may be entirely blotted out from God's Book of Remembrance, and that you may enter the Kingdom of Heaven as a little child

Do not sit wistfully wishing for Do not sit wistfully wishing for the return of the days of youth, but act in the way which will bring back some measure of their opportunities, To-day may be said to be yesterday over again; to the extent to which it is act in it as you say you would to fit the tree.

COLONEL AND MRS. GASKIN

A Tribute—A Biographical Sketch—And A Retrospect

A CHARACTER ESTIMATE

OR twenty years Colonel Albert Gaskin has been going up and down, to and fro. the Dominion of Canada and Newfound land in a greater measure than any other Salvationist, and thus is, perhaps, more widely known than any other Officer on the Canadian rolls. It is, therefore, not necessary to draw a pen portrait of the departing Chief Secretary. His manifest sire on wiells from and from alcourage are sufficiently familiar to us all: and when Colone) and Mrs. Gaskin are traversing the Alnine cantons or peaching Christ and Him erucified in the city of Rome, Canadians will comember the seasons when the flood-tides of God's sanctifying power flowed at Officers' Conncils or special campaigns conducted by him in the old-astablished towns and cities down East and the newer communities of the coming West.

As General Secretary and latterly as Chief Secretary, Colonel Gaskin is closely identified with the most prosperous period of The Salvation Army in Canada. He has rendered splendid service to the cause in this country, for which the forces are grateful. We honour him for his labours for God and The Army in British North America, and admire him and Mrs. Gaskin for the Salvetion spirit they have shown in their readiness to march on, at the command of their General to another portion of The Army's worldwide battle lines and at whatever position on the front they may be placed, their twenty years' conduct in Canada gives us absolute confidence that they will put up a fight that will honour the Captain of their Salvation, advance the cause of The Army, and bring credit to themselves.

A very outstanding feature in the characters of Colonel and Mrs. Gaskin is that they have held fact to the first principles of their early consecration-simple Salvationism. dom first," and "where He leads I will follow," is now as ever their sloran and they are determined to know nothing on earth among men, save Christ and Him erneified. They have not allowed flesh and blood to divert them from the path of duty, or the field of labour willed by Providence. With the same confidence in the Almighty: they follow at the call to Switzerland and Italy, with their linguistic difficulties and glorious privileges, as when they hearkened and obeyed the voice that led them to Clanton Training College-and they are relying upon the same simple faith, that has keep them all these years, to keep them to the end.

Colonel and Mrs. Gaskin, from the Atlantie to the Pacific, your comrades in the war salute you, and hid you God-speed. Your example is

CAREER AND CONVERSION

It may be of interest to recall at this time a few particulars concerning the careers of the comrades who are leaving us. Both are of English birth: the Colonel was born in the little town of Kegworth, and converted to God in the same community.

He had on a few occasions attended Salvation Army meetings in towns adjacent to his own, and had been favourably impressed so that when The Salvation Army opened fire at Kegworth, he was quite in sympathy with the Movement. At Kozworth, as at other places, the advent of The Army resulted in a number of well-known drunkands abandoning their dissolute courses, and one evening, young Gaskin, theo twenty-two, a deyotee to athletic sports, worldly-minded, but

healthy and clean-living, listened to a wellknown character sing the Salvation song, "He Pardoned a Robel Like Me." The converted drunkard then described the life of debauchery from which he had been saved, and appealed for confirmation of his statements to similar characters, who stood in the rite. They corroborated his testimony

This made a profound impression upon serve Gaskin. The work of grace accomplished in the heart of that drunkard not only showed him his need of Salvation but it also revealed who trifling things foot-racing leaning and similar sports were compared with the results that attended the preaching of the Gosnel The cousequence was that he sought the Saviour for the Salvation of his own coult and come mouths later, as he was travelling in a railway carriage, knelt down and gave himself to God for Officer shin and the Salvation of others. Within a year of his conversion he was in the Clanton Tenining Home, London, England

In October 9th, 1885, he left the Training Home to be Lieutenant to the late Brigadier Charlie Mitchel, who was in charge of the "Victory" Cavalry Van, and, with twelve Cadets, to take Salvation to the villagers of rural England. and in the month of December of the same year came promotion to the rank of Captain, and the command of Corps. His career as a Field Officer was characterized by several very remarkable revivals of soul-saving, and a feature of those who got converted in his meetings was the number of notorious cases.

Colonel Gaskin has a lecture which he has. with remarkable acceptance, delivered all over the Dominion of Canada, entitled "Oneer Fish and How They Are Caught" and perhans a more extraordinary collection of human documents has never been described on platform or it printed page. They were the converts of his Field Officer days,

After nine Corps came promotion to Staff rank: and appointment to Staff work. He was the Young People's Secretary for a number of Divisions; then followed a series of appointments as Chancellor and a period of Garrison Officer work. Following this he had the Divisional Commands of North London and Central London, after which he was made Secretary for the London Province and Training Hours, Next eanic his appointment as General Secretary to Canada

Mrs, Gaskin was a Local Officer at Hinckley when Captain Gaskin was appointed to that Corns. It goes without saving that Rules and Regulations were strictly adhered to by the Hinekley Captain; nevertheless, Convert Sergeant Major Green went to the Training Home. then to a Corps (Oldham I.) as Lientenaut to now Colonel and Mrs. Hoggard; thence to the Manchester Headquarters, where she became Mrs. Adjutant Gaskin. Since then the currents of their lives have blended

Commander Eva Booth had been in charge of Canada just three weeks when Major Albert Gaskin arrived in Toronto to take the position of General Secretary on the Headquarters Staff, and for twenty years, save for a brief interval as Chief Secretary for the West, he has been at the building on the corner of James and Albert Streets, Toronto, filling with splendid devotion and capacity the positions of General Secretary. Field Sceretary, and Chief Secretary, His consistcht ascent in rank and position and influence bears witness to his innate worth and genuine capacity, which has been fully recognized by his leaders,

Conversation with the Colonel shows what substantial and splendid strides The Army has made in the Dominion during the last course of decades. "No lodgings for the men!" came the report of the gangers; "they won't stop!"
In shis hour of amergency rose one in the gloomy council — one who knew—and he said: "This is a Job for The Salvation Army!" This statement was immediately endosed by the firm, which had had expen-tation of The Army's activities in enee of the Army's activities in similar circumstances, formerly, and Cotonel Laurie was communicated with at the Whiteehapel Headquar-ters of the City Colony.

Arrived in the city, the Colonel found the place chock-a-hlock with people; always densely populated, it was now endeavouring to digest an influx of war workers to the accompaniment of many unpleasantnesses of dyspepsia. In their despair the famous contractors had pitched a number of hell tents on the site in order to provide sleeping accommo-dation for some of their men, but the weather conditions were so atroclous that scant prospect of success clous that scant prospect of success attended the venture. Before leaving the city the Colonei hustled round seeking to make ar-rangements for other temporary ac-commodation. First he looked at several munition sheds already roofseveral munition sheds already roof-ed in—the machinery was not yet to hand. Why not utilize these? He hald but to suggest it, and the buildings were thrown open. He also secured the use of one room in a day school which was partially occu-pied by men employed by the muni-tion firm.

On returning to London the Colone saw a supply of beds, etc., pack-ed in readiness, and then, when everything was speeding up, came trouble. "The railways are held up for Government purposes," was the statement. So the Colonel had to get busy again, but in the end he obtained preferential transit for the bods, which arrived at their destina-tion the following day, and the housing of the workers proceeded

GRAPHITE MINING

GRAPHITE MINING

ONE of the many industries
which has felt the stimulation of
war conditions in the United States,
it has been found by the Geological
Survey in its stock-taking of mineral
developments, is graphite infining.

While graphite is not used itself as an ingredient in war munitions, it is of great importance in the manu-facture of munitions and devices of minutions and devices of war, since the melting of metals lor fine work is carried on almost exclusively in graphite crucibles.

The imprecedented demand for the substance has brought about the opening of mines in new locations in Alabama and in virgin graphite territory in central Texas. After a study of the situation, the survey found that the old-established mines in a number of the Eastern States increased their output nearly two million pounds in 1915.

The opening of the new sources of the mineral will bring about an even more marked increase in the pro-duction the present year, the Gov-ern geologists predict.
